

COUNTRY CODE LISTING

Please refer to your Cellhire pack literature for specific dialing instructions. Below are the country codes and other Helpful Dialing Hints:

Country codes are used when dialing an international phone number. For example if you want to call from the UK to the US using your cell phone you must dial: "+" 1 + phone number. To get the "+" sign, you push the "*" twice.

For people to call you from the US to your international location, they will first need to call their land or cell phone service provider and ensure international service is available on their line. They will follow the same process. For example if they want to call you in France from the US, they must dial 011 + 33 + phone number, using the "+" sign if dialing from a cell phone for most US carriers.

Country	Code	Country	Code
Afghanistan	93	Liechtenstein	423
