▶ Basic Phone Operation

Setting up your Nokia phone

Be sure the battery is charged. Your phone is supplied with a dual volt charger (110/220 volt) and an international adapter so it can be charged anywhere in the world.

To power the phone on/off

Press and hold the power/end key as shown on phone diagram until phone powers on or off.

To unlock & lock the keypad

To unlock the keypad select Unlock, and press the ✹ key within 1.5 seconds.

To lock the keypad select Menu, and press the ✹ key within 3.5 seconds. To answer a call when the keypad is locked, simply press the call key.

⚠️ *Important Note: Cellhire recommends you lock the keypad when you're not using the phone. This prevents erroneous calls and text messages from being sent.*

To answer & end a call

To answer press the call key. 📞
To end press the end call key. 📞

To redial the last number called

Press the call key twice. 📞

To make an emergency call

Dial 112 then press the call key. 📞

To adjust volume
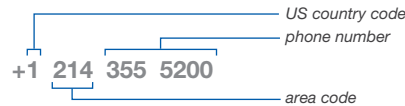

Press the Scroll left or Scroll right key during a call.

▶ Dialing Instructions

Calling a US Number

1. Press ✹ twice to quickly bring up a **+** symbol

2. Enter the US country code, 1
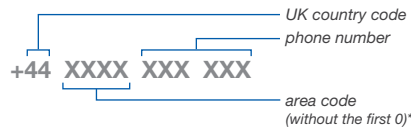

3. Enter the phone number, including area code

For example, to call Cellhire Support, dial:

```
                              US country code
                              phone number
+1  214  355  5200
                              area code
```

Calling an international number

1. Press ✹ twice to quickly bring up a **+** symbol

2. Enter the country code for the country you are dialing. See *International Country Codes* section.

3. Enter the phone number, including area code (without the first 0)*

For example, to call a number in the UK dial:

```
                              UK country code
                              phone number
+44  XXXX  XXX  XXX
                              area code
                              (without the first 0)*
```

TIP: *People in the US should dial "011" instead of the + symbol when calling you from a landline*
