▶ Dialing Instructions

Calling a US Number

1. Press ✱ twice to quickly bring up a **+** symbol

2. Enter the US country code, 1
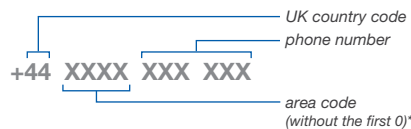

3. Enter the phone number, including area code

For example, to call Cellhire Support, dial:

```
                              US country code
                              phone number
+1  214  355  5200
                              area code
```

Calling an international number

1. Press ✱ twice to quickly bring up a **+** symbol

2. Enter the country code for the country you are dialing. See *International Country Codes* section.

3. Enter the phone number, including area code (without the first 0)*

For example, to call a number in the UK dial:

```
                              UK country code
                              phone number
+44  XXXX  XXX  XXX
                              area code
                              (without the first 0)*
```

***TIP:** People in the US should dial "011" instead of the + symbol when calling you from a landline*
